

Ronnefeldt

TEA EXCELLENCE SINCE 1823

100%

ORGANIC | VEGAN | ECO-FRIENDLY

100 % NATURAL ENJOYMENT

We proudly introduce the new, 100% natural tea delight from Ronnefeldt! We aspire to offering prime quality in harmony with nature and the environment. We therefore blend traditional and trendy tea compositions featuring the finest ingredients with a sense of responsibility for our ecosystem.

Our aim is to do the environment good and reduce the burden caused by our products to a minimum or even, if possible, to zero.

We have therefore developed 100% as our first product range which is entirely organic and vegan as well as 100% biodegradable or recyclable or both.

The result is not only exquisite tea enjoyment as with any tea from Ronnefeldt, but also the peace of mind that we are living up to our aspirations. See for yourself.

Experience pure enjoyment with a clear conscience!

100 % VEGAN & ORGANIC

100 % SUSTAINABLE

The wonderful flavour and exceptional quality of our products are founded on healthy soils. Protecting our unique ecosystem is therefore a matter of particular importance to us. All the 100% teas and ingredients are organically grown and are produced and processed to be vegan.

All the materials we use including printing inks etc. are either biodegradable or recyclable or both. This is the path we have chosen to tread en route to a more sustainable future.
